

# King Is White and in the Crowd

## Simple Minds

Talking by the pool of light, language from America.  
She puts on the film of him, King is white and in the crowd  
They are not a melting pot, say no, say no tapestry  
She puts on the film of him, King is white and in the crowd  
She takes his hand and she says  
you'll stay  
She's lost in the crowd  
King  
Wire them up, fire them up  
The life and times, the art and talk  
Wire them up, fire them up  
The life and times, the art and talk  
Lovers run camp Africa, Bars in town are civilised  
She puts on the film of him, King is white and in the crowd  
Panorama, Citylife  
Youth's dance proud from the waist down  
She puts on the film of him, King is white and in the crowd  
She takes his hand and she says  
you'll stay  
She's lost in the crowd  
King  
Wire them up, fire them up  
The life and times, the art and talk  
Wire them up, fire them up  
The life and times, the art and talk  
Shot from where the action is, a rhapsody in black and blue  
She puts on the film of him, King is white and in the crowd  
Love lies under western eyes, powerful yet transient  
She puts on the film of him, King is white and in the crowd  
She takes his hand and she says you'll stay  
She's lost in the crowd  
King  
Wire them up, fire them up  
The life and times, the art and talk  
Wire them up, fire them up  
The life and times, the art and talk
