

# Got You on My Mind

NF

Started with phone conversations and I  
Flew out to see you, it's raining outside  
We sat by the water and talking about life  
Oh  
Said you lost your dad, girl I know how that feels  
I lost my mum, tryna deal with that still  
I guess we connect on our hatred for pills  
It's real  
I got you on my mind, baby  
I got you on my mind, baby I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind  
You got me thinking things I never used to  
I'm not the phone type, I'd rather be with you  
Sometimes I hold back from saying, "I miss you"  
But I miss you  
I have to admit, on this road I get lonely  
But you make me smile every time that you call me  
You let me be myself  
You don't control me I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind  
Laying in my bed, I'm just staring at the ceiling, baby  
I just wanna know if you feel what I'm feeling, baby  
Got you on my mind yeah, tell me what the deal is lately  
Yeah, deal is lately, deal is lately  
I'm a man of my word, girl believe that  
I'm a closed book but somehow you learn to read that  
Know that I should relax, hate the way I react  
Thinking that I'm good but you know I'm 'bout to relapse  
Thinking that I'm good but you know I'm 'bout to relapse  
Girl wake up let's go, all I can think of is you I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind  
I got you on my mind, baby

I got you on my mind, I got you on my mind  
I got you on my mind, baby  
I got you on my mind, I got you on my mind
