

# Let's Just Be Friends

Luke Combs

[Verse 1]

You're from one side of the tracks  
And I live on the other  
Why we don't see eye-to-eye  
Really ain't no wonder  
But you got the rock and I got the roll  
You got the heart and I got the soul

[Chorus]

So let's just be friends  
Ain't gotta fight about it  
Let's find a way around it  
Let's just be friends  
Hey, what do you say?  
If we don't even know what we were fussin' about  
Don't you think it's time we work it out?  
Let's just be friends  
Hey, let's just be friends

[Verse 2]

Yeah, we're pretty good alone, but I bet that together  
We could make some noise this town would talk about forever  
We've been back and fourth and pickin' sides  
When you ain't wrong and I ain't right

[Chorus]

So let's just be friends  
Ain't gotta fight about it  
Let's find a way around it  
Let's just be friends  
Hey, what do you say?  
If we don't even know what we were fussin' about  
Don't you think it's time we work it out?  
Let's just be friends  
Hey, let's just be friends

[Bridge]

You're big city and I'm small town  
The best of both worlds is what it sounds like  
Let's just be friends

Oh, let's just be friends

[Chorus]

Let's just be friends  
Ain't gotta fight about it  
Let's find a way around it  
Let's just be friends  
Hey, what do you say?  
If we don't even know what we were fussin' about  
Don't you think it's time we work it out?  
Let's just be friends  
Hey, let's just be friends

[Outro]

Oh, let's just be friends
