

Pick Me Up

Brett Kissel

[Verse 1]

Don't want to stay here in this neon light
Don't want to sit and talk to strangers all night
I saw this pretty girl yeah, she looked like you
Oh but all I wanna do
Is call you number say "I want you so bad"
Tell you you're the best I ever had

[Chorus]

Come pick me up tonight, tonight, tonight
We can drive it home with one headlight
I don't need nothing but you by my side
Baby you got the keys I'll take the passenger seat
Come pick me up tonight

[Verse 2]

Don't wanna go back to that bed alone
Don't wanna lay there frozen, high as stone
I'm missing you missing me and how it all used to be
So get in your car and just leave

[Chorus]

Come pick me up tonight, tonight, tonight
We can drive it home with one headlight
I don't need nothing but you by my side
Baby you got the keys I'll take the passenger seat
Come pick me up tonight

[Bridge]

Oh just pick me up
I'll call your number say I want you so bad
Tell you you're the best I ever had
Come pick me up tonight, tonight
Pick me up

[Chorus]

Come pick me up tonight, tonight, tonight
We can drive it home with one headlight
I don't need nothing but you by my side
Baby you got the keys I'll take the passenger seat

Come pick me up tonight
Come pick me up tonight
