

Won't Do Live

baLance and the Traveling Sounds

[Chorus]

One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough for me, no

[Verse 1]

I got one got 2 got
Tell me do you got what I need
A few beats, ink n' sheets of loose leaf
The stickiest trees and a bottle of JD
I'm in the box kickin' sick 16's
Need music like I breathe, eat, shit, sleep
Scheme for the dream on each track as we comin' up
Can't stop, won't stop, we need another one, and another one
One is never enough, unless I'm number one
Till then I'm never satisfied, average won't fly
My own worst critic, my one tracked mind
But I can't have one, and two won't do
In fact, anything less than success is too few
Them belly full, but we hungry, like Marley said
I must be deaf, if the art is dead

[Pre-Chorus]

(Yeah, yeah) You got one, that's cool
(No, no) Nowadays everybody got two
(Yeah, yeah) That'll do, but I need another one
And another one

[Chorus]

One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough for me, no

[Verse 2]

One is never enough
And two won't do, my dear
There's somethin' I gotta say
There's something you really gotta hear

I bet you think I'm selfish
'Cause I'm calling out to you
Singin' this one song
I know you wanna hear this one mo' gain
Two mo' gain, girl
Let's make our situation more than friends, girl
I just can't seem to get you off my brain
Nawm'sayin? Naw'mean?
You and me, one and one makes two
Simple arithmetic to get us through
And start brand new
Cuz I'm tryna be the one the other two didn't do

[Pre-Chorus]

You got one, that's cool (Didn't do)
Nowadays, everybody got two
That'll do, but I need another one
And another one

[Chorus]

One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough for me, no
One won't do, two is not enough
Not enough for me, no!

[Bridge]

[Vocalizing]
