

# Drown

Tate McRae

Broken glass, I knew from the start that we'd never last  
But it happened so fast  
You took my hand and convinced me you'll be here until the end  
Wouldn't break, just bend Told myself I wouldn't fall  
Now I'm back, learnin' to crawl  
And I hate to see  
Something I love makin' fun of me  
Now we're hangin' in the room  
Some with doubt we don't belong  
Gets harder and harder to breathe Why do I dive head into the water?  
Sinkin' deep down, you're pullin' me farther  
I try, I try, I try but can't deny  
I can't form a sound, you're love's makin' me drown  
Hit a wall, somehow it always ends up my fault  
And all the pieces fall  
It ain't right, all of my words turn into a fight  
And it keeps me up at night Told myself I wouldn't stay  
Didn't think it'd be this way  
And I hate to see  
Something I love makin' fun of me  
Now we're hangin' by a thread  
Million thoughts gone through my head  
And it hurts everytime I breathe Why do I dive head into the water?  
Sinkin' deep down, you're pullin' me farther  
I try, I try, I try but can't deny  
I can't form a sound, you're love's makin' me drown  
You're love's makin' me drown  
You're love's makin' me drown  
You're love's makin' me drown  
You're love's makin' me Why do I dive head into the water?  
Sinkin' deep down, you're pullin' me farther  
I try, I try, I try but can't deny  
I can't form a sound, you're love's makin' me drown You're love's makin' me drown  
You're love's makin' me drown
