Body Language

[Seth Bishop](#)

It's Kid Ink, yeah yeah

It's not that a lot that you've been saying, whoa
But I can tell from your body language, ok
Let's talk about it ('Bout it)
Is you 'bout it? ('Bout it)
Let's talk about it ('Bout it)
Can we talk about it?

But you ain't gotta say too much
Ain't gotta say too much
I can read your body language
You ain't gotta say too much
I can read your body language

Said you ain't gotta say too much
Hate when you say that I play too much
When I get too close I'mma touch that subject
I can read yo' body 'nough said
Quit all that yappin'
Need less talk and a little more action
Yeah now girl keep it G, know you speak a lil freak
I can hear it in yo' accent
Said, "Tell me, can you understand my language?"
If you tryna ride, just stay in my lane
There's no other way to explain it
In layman, fuck who you came with

It's not that a lot that you've been saying, whoa
But I can tell from your body language, ok
Let's talk about it ('Bout it)
Is you 'bout it? ('Bout it)
Let's talk about it ('Bout it)
Can we talk about it?

But you ain't gotta say too much
Ain't gotta say too much
I can read your body language
You ain't gotta say too much

I can read your body language

It ain't hard to tell
If you don't wanna take it too far, then well
You better stop flirtin' and stop twerkin'
So perfect, cause it's workin'
That ass worth all the worship
You been in yo' bag like Birkin
Never had it like this before me
You ain't know girl better read up on it
Hell yeah, gotta re-up on me
Bein' stuck up gon' leave you lonely
For the night, we should leave before the light's
On, girl, I'm too on

It's not that a lot that you've been saying, whoa
But I can tell from your body language, ok
Let's talk about it ('Bout it)
Is you 'bout it? ('Bout it)
Let's talk about it ('Bout it)
Can we talk about it?

But you ain't gotta say too much
Ain't gotta say too much
I can read your body language
You ain't gotta say too much

Ooh, they say don't judge a book by its cover
We can make a scene that you be under the covers
Listen ou ain't gotta say too much
You ain't gotta say too much
(You ain't gotta say much, you ain't gotta say much)
Body talkin', girl I'm listenin'
Come closer, let me hit it

It's not that a lot that you've been saying, whoa
But I can tell from your body language, ok
Let's talk about it ('Bout it)
Is you 'bout it? ('Bout it)
Let's talk about it ('Bout it)
Can we talk about it?

But you ain't gotta say too much
Ain't gotta say too much
I can read your body language
You ain't gotta say too much

I can read your body language
