

Groves

The Gloomies

[Verse 1]

Summer nights we laid in bed
Soaked in sweat up to our heads
I touched her waist down to her thigh
She whispered softly, take your time

[Chorus]

Everyone will wear you down
Everyone will sell you out
I drove across America for months
Sleepless nights make lovers of everyone

[Bridge]

I could waste away with you
I could waste away with you

[Verse 2]

Summer days I'll burn away
Dreamt about the past six days
Saw the orange groves out back
Made me miss the way you laughed

[Chorus]

Everyone will wear you down
Everyone will sell you out
Lovers call for grounds and rose red paint
Spill across my floor like wild flames

[Bridge]

I could waste away with you
I could waste away with you
I could waste away with you
I could waste away with you
