

# All I Want

Bob Moses

I'm up for a real hard time  
Now you've changed your mind  
Knew I'd see the day  
Go on, have it any way  
Just enough you say  
I'm all yours to take

This is all I want from you  
Yours to give and mine to lose  
This is all I want from you  
All I want from you

You found a feeling that was new  
And now we're half way through  
You're changing all the rules  
Say, "Now my friend, if you mind  
your name upon this line..."  
It seemed so black and white

This is all I want from you  
Yours to give and mine to lose  
This is all I want from you  
All I want from you

This is all I want from you  
Time to change and time to choose  
This is all I want from you  
All I want from you

This is all I want from you  
Yours to give and mine to lose  
This is all I want from you  
All I want from you

This is all I want from you  
Time to change and time to choose  
This is all I want from you  
All I want from you

This is all I want from you

Yours to give and mine to lose  
This is all I want from you  
All I want from you

This is all I want from you  
Time to change and time to choose  
This is all I want from you  
All I want from you
