

# Letting Go

## ONE OK ROCK

[Verse 1]

I remember getting fucked up on the long nights  
I remember how we made up after long fights  
I remember when we stayed up to the daylight  
I remember when you told me you were all mine

[Pre-Chorus]

Let the past be the past  
'Cause I know nothing lasts  
Yeah, we had what we had  
But I'm moving on

[Chorus]

I hope you know that it wasn't easy  
Letting go of the life I knew  
I just had to get out, move to the city  
Didn't feel right taking you with me  
Hope you know that it wasn't easy letting go

[Verse 2]

I tell myself that I don't need you, that I'm okay  
Tell myself I'm on my own now, go my own way  
I see the pictures of your new life, you look happy  
Tell myself moving on should be easy

[Pre-Chorus]

Let the past be the past  
'Cause I know nothing lasts  
Yeah, we had what we had  
But I'm moving on

[Chorus]

I hope you know that it wasn't easy  
Letting go of the life I knew  
I just had to get out, move to the city  
Didn't feel right taking you with me  
Hope you know that it wasn't easy letting go

[Bridge]

I was so scared of heights before I fell for you

Felt like we had nothing but time  
Lie to each other, but we know it's true  
Our love was young and born to die

[Pre-Chorus]

I remember when we stayed up to the daylight  
I remember when you told me you were all mine

[Chorus]

I hope you know that it wasn't easy  
Letting go of the life I knew  
I just had to get out, move to the city  
Didn't feel right taking you with me  
Hope you know that it wasn't easy letting go  
Letting go  
Letting go  
Letting go
