

So Excited (Radio Edit)

Avicii

I've been watching you, I like those little moves you make...
Said I'm feeling you, Tell me are you feeling me too
I'd like to know your name but I'm so scared
Afraid of what you might say...
But if I don't ever see you again, can't let you just walk away...

Now you're approaching me, excuse me can I know your name?
Took the opportunity, and now we're standing here face to face

It's amazing that you're so beautiful tell me are you really real
And you say you wanna see me again you have been watching me too
I'm so excited excited excited excited!
