

# Lose My Colours (feat. Sam Martin)

[Sam Feldt](#)

What if I lose all my colours  
Would you run off like the others  
And if outside there was trouble  
Would you believe I had it covered?

I thought I lost you for a minute  
You went out searching for a feeling  
It was right in front of you  
Right in front of you  
Let's take it back to the beginning  
Our bodies talked and we would listen  
I'm right in front of you

Can you feel it?  
Tell me that it's still alive  
(Oh-oh-oh-oh-oh-oh)  
Can you feel it?  
Tell me that we still got time  
(Oh-oh-oh-oh-oh-oh)

In this crowded room

Just me and you

Hold on, hold on

If you feel it

Tell me that it's still alive

Alive

Lost in the distance of feather

You're floating away to wherever

Now that we're here stay forever

Don't waste your time in stormy weather

I thought I lost you for a minute

You went out searching for a feeling

It was right in front of you

Right in front of you

Let's take it back to the beginning

Our bodies talked and we would listen

I'm right in front of you

Can you feel it?

Tell me that it's still alive

(Oh-oh-oh-oh-oh-oh)

Can you feel it?

Tell me that we still got time

(Oh-oh-oh-oh-oh-oh)

In this crowded room

Just me and you

Hold on, hold on

If you feel it

Tell me that it's still alive

Alive

Tell me that it's still alive

Tell me that it's still alive
