

Do You Love Me

Guster

We were young, twenty-one
All those years ago
In came the fascination
Everything was out of control
Alive, untried
From thickets and from thorns
Out came a revelation
Everything was out of control Do you feel it? Do you feel it now?
'Cos we want it, but we don't know how
Do we have it as much as anybody ever has? I wanna wake you from your dream
I wanna know just who you're talking to when you're singing in your sleep
I wanna find out what it means
Do you love me?
Now we're fine, all right
but all those days are gone
we read our constellations
everything is under control
Are you tired? (I'm tired) I'm tired
TV sparks and glows
The newsman gives information
Everything is under control Do you feel it? Do you feel it now?
'Cos we want it, but we don't know how
Do we have it? As much as anybody ever has I want to wake you from your dream
I wanna know just who you're talking to when you're singing in your sleep
I wanna find out what it means
Do you love me?
I got marbles in my mouth
A thousand words I wanna say but it's impossible to spit them out
I can barely make a sound
Do you love me? Doo doo doo doo, doo doo doo doo doo doo Do you feel it? Do you feel it
now?
'Cos we want it, but we don't know how
Do we have it as much as anybody ever has? I want to wake you from your dream
I wanna know just who you're talking to when you're singing in your sleep
I wanna find out what it means
Do you love me? I got marbles in my mouth
A thousand words I wanna say but it's impossible to spit 'em out
I can barely make a sound
Do you love me?
Love me? Doo doo doo doo, doo doo doo doo doo doo
