

With You

Trevor Daniel

[Intro]

[Verse 1: Trevor Daniel]

You say
Friends don't do this but
Baby girl I'm clueless
Come through my window
So pops don't find out
I want you so bad bad bad
But she can't find out
Hope after tonight, you still feel the same
We can be friends
You say let's make it official
She knows somethings going on
Wanna prove her wrong
But, wanna make it official

You had this planned out all along
All along
All along

You said
Friends don't do this but
Baby girl I'm clueless of
What you're talking bout
I see nothing wrong with
What we're doing now
Probably cause I'm with you
And I want you want you
Yeah I want you want you, yeah I want you want you
Friends don't do this but
Baby girl I'm clueless of
What you're talking 'bout
I see nothing wrong with
What we're doing now
Probably cause I'm with you
And I want you want you
Yeah I want you want you, yeah I want you want you

Maybe we should ride around

Ride around the city
Cause I know you never ride around the city
You would rather sit around and feel me up
Got me on, got me up
I could ride with you uptown
Ride with you downtown
We can go downtown
I can take you downtown
I could ride you round round with me
And I could take you downtown
I could lay you down, down
Know you can go down, down on me
Hop in my impala
We can go downtown
We can roll around town take the long road
Baby we could ride around town

We can go downtown
We gon go downtown
Unless you go downtown on me
We can go downtown
We gon go downtown
Unless you go downtown on me

You been riding for a while now
Riding for a while now
Lay back and let me do this
You been riding for a while now
Riding for a while now
Baby let me do my thing

Baby I can make you feel good
I can make you feel good
Baby let me make you feel good
I can make you feel good
I can make you feel good
Baby let me make you feel good

Maybe we could ride around town
We could ride around town
Baby ride around town with me
Maybe we could ride around town
We could ride around town
Baby ride around town with me

Hey baby, 5 in the morning
Tell me straight up, if you want it
You can ride it
Get on it

You can ride it
'Till the morning

You been riding me for a while now
Riding me for a while now
Lay back while I go down
Baby we can roll around
Go downtown, downtown
We can go downtown
We can ride, ride round
We can go downtown

[outro]

And I don't wanna do her wrong but
She's gonna move to california
And I want you so bad
And you call me up 'cause you wanna
