

Slow Me Down

Brett Kissel

I'm all night headlights
Weaving through the white lines
I'm a fast train, jet plane
Spinning like a hurricane
I'm lights green, top speed
Nothing's gonna stop me
But your sweet smile

Come and put your arms around me baby
Lay me down and love away my crazy
Be my sunrise, Sunday morning save me
Before the wheels spin out, I need you now

To slow me down
Like only you know how
Slow me down

You're my let go, slow mo
Easy down a backroad
You're my breathe out, breathe in
Hallelujah amen
When I get like this
You're my quick fix, settle me down, kiss

Come and put your arms around me baby
Lay me down and love away my crazy
Be my sunrise, Sunday morning save me
Before the wheels spin out, I need you now

Slow me down
Like only you know how
Slow me down

Just jump in the car and hit the gas
I need you fast baby, speed baby
Speed, get to me, get to me

Come and put your arms around me baby
Lay me down and love away my crazy
Be my sunrise, Sunday morning save me

Before the wheels spin out, I need you now

To slow me down
Like only you know how
Slow me down
Like only you know how
Slow me down
Slow me down
Slow me down
Slow me down
Ooh
