

Promises (Myon & Shane 54 Summer Of Love Mix)

Andain

Woke up today in casts of blue
And helplessly pretending
We'll get better over time
Quit bars and chains, the road anew
I got away still under you

So please don't make more promises to me
And please don't take everything from me
And I will breathe in every word you mean
If you could please promise them to me

Oh oh oh

Fell on the way to getting through
Collect the days of bad things, so it's better all the time
I never notice shades and hues
Away and safe still under you

So please don't make more promises to me
And please don't take everything from me
And I will breathe in every word you mean
If you could please promise them to me

Oh oh oh

So please don't make more promises to me
And please don't take everything from me
And I will breathe in every word you mean
If you could please promise them to me
