

Jungle Lady

LION BABE

[Pre-Chorus]

Honey I'm rare and you know it
But I see you're special too!
Been alone for a minute, and I could get used to you

[Chorus]

Tell me how you want it baby
You know you need a jungle lady
Make me go wild and crazy
So let's move into the dark
Tell me how you want it baby
You know you need a jungle lady
You know you should stay
Cause I'm never gonna take away, my love

[Verse 2]

Feeling hot, you already know
I can't hide, I wanna show you
Oh ah, ah ah oh ah, oh ah, ah ah oh ah
Baby don't be shy let's go and fall in love
And hold each other close, watch the stars above
Oh please, babe

[Chorus]

Tell me how you want it baby
You know you need a jungle lady
Make me go wild and crazy
So let's move into the dark
Tell me how you want it baby
You know you need a jungle lady
Jungle lady, jungle lady, jungle lady

[Verse 3]

Don't be shy let's go and fall in love
And running through the dark and touch the moon above
Believe me, baby. I want you and I'd sing for you

[Pre-Chorus]

Honey I'm rare and you know it
But I see you're special too!

Been alone for a minute, been alone for a minute
You know you need a jungle lady
