

# Shot By My Own Gun

## Sam Feldt & The Federal Empire

[Verse 1]

I love the Wild West in the middle of the street  
Pull back, hammer down and walk ten feet  
Love drunk in Whiskey town, you taste so sweet  
I was a fool to tell you everything

[Pre-Chorus]

You take aim with the words I gave  
Turning back on me  
Cold of steel on the trigger you hold  
Where's the woman that I used to know?

[Chorus]

Well, you shot me down with my own gun  
Now my heart is bleeding while you're on the run  
Yeah, you got what you wanted, now the deal is done  
Never thought that I would be the one  
Shot by my own gun

[Verse 2]

Last breath, looking at you walking away  
You took everything I had just to get paid  
Angel of death, why you looking so sweet?  
I was a fool to tell you everything

[Pre-Chorus]

You take aim with the words I gave  
Turning back on me  
Cold of steel on the trigger you hold  
Where's the woman that I used to know?

[Chorus]

Well, you shot me down with my own gun  
Now my heart is bleeding while you're on the run  
Yeah, you got what you wanted, now the deal is done  
Never thought that I would be the one  
Shot by my own gun  
Shot by my own gun

[Outro]

Well, you shot me down with my own gun  
Now my heart is bleeding while you're on the run  
Yeah, you got what you wanted, now the deal is done  
Never thought that I would be the one  
Shot by my own gun
