

# MF

## AWOLNATION

MF let's jump tonight  
You can call a taxi  
I can ride a bike  
Bazooka tube on my shoulder  
It's getting colder  
I need to hold her Stop! Everybody just freeze  
and kiss the sky and touch your knees  
the radio is killing America  
can you feel the hysteria MF are you listening to me  
MF are you moving to the beat  
MF time to take it to the streets  
MF play it on the radio  
MF I will see you at the show  
MF time to take it to the streets  
When I run through the world  
With my dick in hand  
When I punch you in the face  
With the bass and a plan  
You will never be quite the same  
Cause it's AWOL! You can sing my name  
You were upside down  
You were backside up  
With the windows down  
When the lightening struck  
The great depression of the airwaves  
So kill the suit and the DJ!  
MF are you listening to me  
MF are you moving to the beat  
MF time to take it to the streets  
MF play it on the radio  
MF I will see you at the show  
MF time to take it to the streets  
[x3]
