

Twinbow

Slushii & Marshmello

[Instrumental]

[Chorus]

When I wake I want to fly, high
Higher, and higher, and higher
Don't wanna risk my life
If the only way to make it is to break the rules and take over the world
High, higher, and higher, and higher
Don't wanna risk my life
If the only way to make it is to break the rules and take over the world

[Drop]

(Break the rules and take over the world)
(Yeah!)
If the only way to make it is to break the rules and take over the world
(Take over the world)

[Chorus]

When I wake I want to fly, high
Higher, and higher, and higher
Don't wanna risk my life
If the only way to make it is to break the rules and take over the world
High, woo, high
High
If the only way to make it is to break the rules and take over the world

[Drop]

(Oh)
(Break the rules and take over the world)
If the only way to make it is to break the rules and take over the world
