

Just Call (feat. Bella Thorne)

Prince Fox

It's no surprise you left this hole
It's no surprise I've lost control
Tell myself byes and I'm feeling alone

It's mine to mine stuck hearing this phone
Waiting for you only
To light up my face

So just call if you need me
Call if you don't
Call If you love me
Call if you won't
Call me an asshole
Call me a fool
Just call
Just call

Tell all my friends how much you suck
And they heard my phone 'cause they know that I will pick up
I shouldn't care about your calls
But I miss your voice and I can't sleep at all
So just call if you need me

Call if you don't
Call If you love me
Call if you won't
Call me an asshole
Call me a fool
Just call
Just call
Just call
Just call
Just call
Just call

So just call if you need me
Call if you don't
Call If you love me
Call if you won't
Call me an asshole
Call me a fool
Just call
Just call

Just call (It's no surprise you left this hole)
Just call (It's no surprise I've lost control)

So just call if you need me
Call if you don't
Call If you love me
Call if you won't
Call me an asshole
Call me a fool
(Please just call me
So just call
Just call me)
