

Young

Old Dominion

[Verse 1]

All we had was a feeling
All we knew is we were leaving
A couple drops inâ€™...theâ€™...ocean
Go back forâ€™...just a moment
Before the music wasâ€™...jaded
Before the picture was faded
Falling with our eyes open
It's gone before you know it
Lately I've been thinking about it baby
If we made it complicated
Or if this is just life, ooh

[Chorus]

Lately I've been walking on a wire
I know nostalgia is a liar
But I still miss those nights, ooh
Baby I just wanna be young, young
Forever with you, you
I just wanna be young, young
Forever with you, you

[Verse 2]

You're still wearing my jacket
I can still get you laughing
If we ever forget it
Go back just for a minute
You know all my secrets
I know all your demons
You still say you love me
And I know you mean it
But that don't mean I can't miss it
Go back just for a minute

[Chorus]

Lately I've been walking on a wire
I know nostalgia is a liar
But I still miss those nights, ooh
Baby I just wanna be young, young (I just wanna be young)
Forever with you, you (I just wanna be young)

I just wanna be young, young (I just wanna be young)
Forever with you, you (I just wanna be young)

[Post-Chorus]

I just wanna be young, young (I just wanna be young)
Forever with you, you (I just wanna be young)
Baby I just wanna be young, young (I just wanna be young)
Forever with you, you (I just wanna be young)
I just wanna be young (I just wanna be young)
Forever with you, forever with you (I just wanna be young)
I just wanna be young (I just wanna be young)
(I just wanna be, I just wanna be young, I just wanna be, I just wanna be young)
