

# Till the Wheels Come Off

## Cold Creek County

[Verse 1]

Brother, it's the last night in town  
So get on up, we're gonna burn it down  
Tell your girl grab your coat  
You know where we're gonna go

[Verse 2]

We've both been through thick and thin  
Half way to hell, and back again  
We got one more night to get it all in  
Cause you'll be gone in the mornin'

[Pre-Chorus 1]

Those troubles  
Them problems  
Leave 'em all behind  
We're goin' all out, full throttle  
Right here tonight

[Chorus]

We got nothin' but trucks in the parking lot, yeah  
We're going to turn up the country  
And break the knob off, yeah  
We're goin' to do it right  
Under those KC lights  
Do it right, the way we've done it our whole life  
One more night to get it right dont stop, yeah  
Till the wheels come off, yeah  
Till the wheels come off

[Verse 3]

No work, so you can't stay  
Two hard years of bills to pay  
You're goin to try your hand in the golden state  
With the girl you're going to marry someday

[Pre-Chorus 2]

Those troubles  
Them problems  
We're gonna set em right

We're goin' all out, full throttle  
Right here tonight

[Chorus]

We got nothin' but trucks in the parking lot, yeah  
We're going to turn up the country  
And break the knob off, yeah  
We're goin' to do it right  
Under those KC lights  
Do it right, the way we've done it our whole life  
One more night to get it right dont stop, yeah  
Till the wheels come off, yeah  
Till the wheels come off

[Bridge]

You might not come back to this town again  
Yeah when you get old  
You're goin to talk about way back when

[Chorus]

We got nothin' but trucks in the parking lot, yeah  
We're going to turn up the country  
And break the knob off, yeah  
We're goin' to do it right  
Under those KC lights  
Do it right, the way we've done it our whole life  
One more night to get it right dont stop, yeah  
Till the wheels come off, yeah  
Till the wheels come off

[Outro]

We got nothin' but trucks in the parking lot, yeah  
We're going to turn up the country  
And break the knob off, yeah  
Till the wheels come off
