

# Small Town Big Time

Blake Shelton

Yea, Hollywood Boulevard  
Looking down, seeing stars  
90210, Rodeo is Rodeo  
Glad I hit it, glad I did it and I'd do it again  
Yea, and hang with my friends With them red Maserati's and them tuned up bodies  
And everybody gonna be the next somebody  
Yea, this place is a trip  
Hey but meanwhile back in the stick Somebody's having a small town big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
Or keeping the buzz sipping on a little moonlight  
Yea, they know how to rock  
Out in the boondocks  
Cause believe me I've been there  
Somebody's having a small town big time night, somewhere Yea, two lane town squares  
Cotton queens, county fairs  
With a water tank  
Got 100 girls' names under the paint Glad I hit it, glad I did it and I'd do it again  
Yea, I miss my friends With them pick'em up trucks and them dirt road ruts  
And all them country girls get to strutting their stuff  
East, west, north or south  
Yea you better believe, [?] Somebody's having a small town big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
Or lighting it up with a KFC spotlight  
Yea, they all got the swerve  
Down back in their hometown  
I wish that I was there  
Somebody's having a small town big time night, somewhere Somebody's having a small town  
big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
And twisting it up and dodging them blue lights Yea, they know how to kick it  
Way out past the limits  
Cause baby I've been there  
Somebody's having a small town big time night, somewhere Yea, somebody's having a small  
town big time night, somewhere  
I wish that I was there  
Yea, I wish that I was there
