

# Sober Up (feat. Rivers Cuomo)

AJR

Hello, Hello, i'm not where im supposed to be  
I hope they you're missing me cause it makes me feel young  
Hello, Hello, last time that i saw your face was recess in second grade  
And it made me feel young  
Won't you help me sober up  
Growing up it made me numb and I want to feel something again  
Won't you help me sober up all the big kids they got drunk  
And i want to feel something again  
Won't you help me feel something again  
How's it go again  
Goodbye, Goodbye, I said to my bestes buds we said that well keep in touch  
And we did our best  
all my new friends we smile at party times  
But soon we forget to smile at anything else  
Won't you help me sober up, growing up it made me numb  
And i want to feel something again  
Won't you help me sober up all the big kids they are drunk  
And i want to feel something again  
Won't you help me feel something again  
How's it go again  
How's it go again  
My favorite color is you, you gotten ridden out my frequency  
My favorite color is you, you keep me young, and that's how I wanna be  
My favorite color is you, you gotten ridden out my frequency  
My favorite color is you, you keep me young and that's how I wanna be  
Hello, Hello, i'm not where i'm supposed to be  
I hope that you're missing me cause it  
makes feel young  
Hello, Hello, last time that I saw your face was recess at second grade  
And it made me feel young and I want to feel something again  
I just wanna feel something again  
How's it go again  
Won't you help me sober up growing up it made me numb  
And i wanna feel something again  
Every color is you  
Won't you help me sober up all the big kids they got drunk  
And i want to feel something again  
Every color is you  
Won't you help me feel something again  
Every color is you  
Can I finally feel something again  
How's it go again
