

# Don't Let Her

Walker Hayes

[Verse 1]

She always said if something ever  
Happened to me, she would never  
Fall in love again, oh, what a waste  
We always said we go together  
But if I'm just half of her forever  
This goes out to whoever takes my place

[Chorus]

She don't give two sips 'bout money  
Likes a little coffee in her honey  
Let her sleep late as she wants  
Home is her favorite restaurant  
Don't you dare come home if you're hammered  
Better watch your mouth and your grammar  
She loves babies, hates glitter  
You better shave 'fore you kiss her  
And if she ever misses me  
Please, don't let her

[Verse 2]

She's insecure about her legs, right?  
Something wrong with her hair, right?  
Just tell her she's crazy (Crazy)  
Even though she won't believe you, nah  
Best advice I can give you, brother  
Don't ever say she's acting just like her mother  
Even though she does sometimes (Sometimes)  
It's gon' be our little secret

[Chorus]

She don't give two sips 'bout money  
Likes a little coffee in her honey  
Let her sleep late as she wants  
Home is her favorite restaurant  
Don't you dare come home if you're hammered  
Better watch your mouth and your grammar  
She loves babies (Loves babies), hates glitter  
You better shave 'fore you kiss her  
And if she ever misses me

Please, don't let her

[Bridge]

Make her feel better

Say something funny, say something 'bout the weather

Tell her wherever I am, I'm good (I'm good)

And if she's thinking she can love again, she should, understood?

Orchids, that's her favorite flower

Don't ever watch The Office without her

After church (After church), she gon' talk (She gon' talk)

Her favourite season is football

[Chorus]

She don't give two sips 'bout money

Likes a little coffee in her honey

Let her sleep late as she wants

Home is her favorite restaurant

Don't you dare come home if you're hammered

Better watch your mouth and your grammar

She loves babies, hates glitter

You better shave 'fore you kiss her

And if she ever misses me

Please, don't let her
