

# No Way

## The Naked and Famous

[Verse 1]

When the daylight comes, do you feel it?  
Leave your bag of bones underneath your bed  
Everything is as it should be  
I'm leaving now as I should be

[Chorus]

No way, no way, no we're never going to talk about it  
No way, no way, no we're never going to speak again  
No way, no way, no we're never going to talk about it  
No way, no way

[Verse 2]

When the night descends, are you sleeping?  
All the things you've done come to haunt you  
All that we can do is smile  
It will be like this for a while

[Chorus]

No way, no way, no we're never going to talk about it  
No way, no way, no we're never going to speak again  
No way, no way, no we're never going to talk about it  
No way, no way

[Outro]

I'm not sorry  
Hardest thing, losing  
Letting go, oh, oh  
Won't look back, no, oh

No way, no way, no way
