

Long Way Home (The Voice Performance)

Todd Tilghman

[Verse 1]

Sometimes dreams get lost

Sometimes love takes time

But the greatest things are worth standing in line

And it's never a race, as long as you get where you're going

Sometimes the heart takes the long way home [Verse 2]

Sometimes you go astray, chasing clouds

Bumps in the road, moments of doubt

Beginners mistakes, no way of knowing

Sometimes the heart takes the long way home

[Chorus]

Life's a melody of hope that we're all singing

Every day, I'm learning more of how it goes

Let me go, let me roam

Even when I'm slow

It's just the long way home [Verse 3]

When the days get rough, when you lose the fight

When you're begging for mercy just to make things all right

Remember the greatest gifts; they're worth standing in line

Sometimes the heart takes the long way home

[Verse 4]

Sometimes dreams come true

Sometimes they don't

You can lose all your money, oh, but don't lose us home

As the years go on, know that you're fine

Sometimes the heart takes the long way home

[Chorus]

Life's a melody of hope that we're all singing

Every day, I'm learning just how it goes

Let me go, let me roam

Even when I'm slow

It's just the long way home

Oh-oh [Outro]

Home, home

It's just the long way home
