No Grass Today

AJR

I didn't smoke no grass today
But that's 'cause I'm the one on stage
So who am I to take away
What makes you feel this great
I didn't smoke no grass today
But that's because I love to play
So who am I to take away
What makes you feel this great
Does the grass look greener
On my side of the speakers
I tried a couple weekends
But that green's not for me
I thought I'd get clever
Make my lyrics come out better
But a 7/11's where you would find me
Don't wanna get paranoid
Just wanna be making noise
You wanna hit, it's your choice
But please enjoy the show
I didn't smoke no grass today
But that's 'cause I'm the one on stage
So who am I to take away
What makes you feel this great
I didn't smoke no grass today
But that's because I love to play
So who am I to take away
What makes you feel this great
Last night at the concert
The audience it flickers
They're lighting up like Christmas
Still that green's not for me
On corners people cursing
To legalize their burning
But that ain't no concern of mine
I keep doing me
Don't wanna get paranoid
Just wanna be making noise
You wanna hit, it's your choice
But please enjoy the show
I didn't smoke no grass today
But that's 'cause I'm the one on stage
So who am I to take away

What makes you feel this great
I didn't smoke no grass today
But that's because I love to play
So who am I to take away
What makes you feel this great
I'm not narcissistic
I'm just high off the music
And I don't wanna miss it
But I wouldn't stop you
I'm not narcissistic
You light up if you like it
And though I may not like it
You should keep doing you
You just keep doing you
Like
I didn't smoke no grass today
But that's 'cause I'm the one on stage
So who am I to take away
What makes you feel this great
I didn't smoke no grass today
But that's because I love to play
So who am I to take away
What makes you feel this great
