

Chance Worth Taking

Mitchell Tenpenny

[Verse 1]

It's the kinda thing that makes you forget everything at a party
Got me taking shots I don't take, but she likes Bacardi
She gonna steal your attention
Make you want more than a friendship
When you try to play it cool
But you know she can hear your heartbeat

[Chorus]

You're standing out from everybody
Got my mind drunk, going crazy
Got me lookin' ahead at things
Seein' some better days, callin' it "our place"
Don't care if you break it, it's a chance worth taking

[Verse 2]

I'm gonna throw it out there
You can catch it in the air or you can drop it
But something's telling me to tell you that I could be falling
No, I didn't expect this, I planned to show up and be reckless
But now I'm being careful, making sure every word I say is perfect

[Chorus]

You're standing out from everybody
Got my mind drunk, going crazy
Got me lookin' ahead at things
Seein' some better days, callin' it "our place"
Don't care if you break it, it's a chance worth taking

[Post-Chorus]

It's a chance worth taking
It's a chance, it's a chance

[Bridge]

It's a chance worth taking (It's a chance)
It's a chance worth taking (Oh)
It's a chance worth taking (It's a chance)
It's a chance worth taking

[Chorus]

You're standing out from everybody
Got my mind drunk, going crazy
Got me lookin' ahead at things
Seein' some better days, callin' it "our place"
Oh, I'm callin' it "our place"
Don't care if you break it, it's a chance worth taking

[Outro]

Oh, I'm gonna give it a chance
Oh, baby, don't, baby, don't, baby, don't break it
(It's a chance worth taking)
Oh, you're worth the chance
