

Dirty Water

Marc E. Bassy

Let's go swimming
Dirty water
Days are shorter
Nights are longer
I wanna be the only lover
That makes it worth it
Pulls you under
From the surface

They've been talkin'
And I heard that your boyfriend now wants one of his own
And I'm too drunk now, if you call I'ma pick up that phone
And I heard that you're out on the town, yeah I know how that goes
When you can't break away from the ties and you dip in that dirty water

In my system
Summers under
Blurry visions
I wanted to be out the shower
By 8:30
And go to work
Not feel dirty

They've been talkin'
And I heard that your boyfriend now wants one of his own
And I'm too drunk right now, if you call I'ma pick up that phone
And I heard that you're out on the town, yeah I know how that goes
When you can't break away from the ties and you dip in that

Dirty water, just in case I don't want to remember nothing
But you know I won't as long as I go deeper to the ocean floor
Find another lover at the liquor store

They've been talkin'
One of his own
Too drunk right now
Know how that goes
Dip in that dirty water
