

I Hope It's Me

Brett Kissel

You
Got something different in your smile
Yeah, you

You got it lightin' up this whole damn room
And I can't help but think about, think about
Just how much I'm all about, all about

You
It's like you're dancin' every time you move
Like the way that only angels do
I hope it's what I think it is
'Cause I could sure get used to this

Whatever fire's got you burnin' up
Burnin' up
The "come in closer" that you're dreamin' of
Dreamin' of
Whatever's doin' what it does
I hope it's me
I hope it's me
Whatever luck, he gets to hold you tight
Hold you tight
Whatever buzz that's got you feelin' right
Feelin' right
I can tell something's sweepin' you
Off your feet
I hope it's me
I hope it's me

Deep
You've got me fallin' now I'm in too deep
You're the secret I don't wanna keep
What we started we can't leave it like this
I wanna be at the end of your kiss, yeah

Whatever fire's got you burnin' up
Burnin' up
The "come in closer" that you're dreamin' of
Dreamin' of

Whatever's doin' what it does
I hope it's me
I hope it's me
Whatever luck, he gets to hold you tight
Hold you tight
Whatever buzz that's got you feelin' right
Feelin' right
I can tell something's sweepin' you
Off your feet
I hope it's me
I hope it's me

Whatever fire's got you burnin' up
Burnin' up
The "come in closer" that you're dreamin' of
Whatever's doin' what it does
I hope it's me
I hope it's me, baby
Whatever luck, he gets to hold you tight
Hold you tight
Whatever buzz that's got you feelin' right
I can tell something's sweepin' you
Off your feet
I hope it's me
I hope it's me
