

# Real (Tobtok Remix)

## Years & Years

[Verse 1]

I broke my bones playing games with you  
This type of fun that makes me blue

[Pre-Chorus]

Oh, I...

I think I'm into you  
How much do you want it too?  
What are you prepared to do?  
Think I'm gonna make it worse  
I talk to you, but it don't work  
I touch you, but it starts to hurt  
What have I been doing wrong?  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me, what it is it?

[Chorus]

Oh, I think that if I had been enough for you  
Would I be better, would I be good?  
And I'll do what you like if you'll stay the night  
You tell me you don't think you should  
You do it, boy  
Well, love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Ooh, it's enough to be better, if I could

[Verse 2]

I itch all night  
I itch for you  
You're just my type  
What's a boy to do?

[Pre-Chorus]

Oh, I...

I think I'm into you

How much do you want it too?  
What are you prepared to do?  
Think I'm gonna make it worse  
I talk to you, but it don't work  
I touch you, but it starts to hurt  
What have I been doing wrong?  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me what it is you want  
Oh, tell me, what it is it?

[Chorus]

Oh, I think that if I had been enough for you  
Would I be better, would I be good?  
And I'll do what you like if you'll stay the night  
You tell me you don't think you should  
You do it, boy  
Well, love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Ooh, it's enough to be better, if I could  
Oh, I think that if I had been enough for you  
Would I be better, would I be good?  
And I'll do what you like if you'll stay the night  
You tell me you don't think you should  
You do it, boy  
Well, love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Love, I will let you go  
Ooh, it's enough to be better, if I could
