

# Little Rain

Morgan Wallen

[Verse 1]

That grass ain't gonna cut itself  
And you can't get your tan on  
Underneath these covers and that four blade ceiling fan  
You know I love to see you  
With that two piece top untied  
But I can think of something better  
I ain't going to lie

[Chorus]

Yeah, I could use a little rain  
Beating on the window pane  
While we listen to the tin roof sing a love song all day long  
Yeah I hope it pours  
And our clothes stay on the floor  
Yeah, that's the kind of storm that's been calling my name  
Yeah, I could use a little rain  
Yeah, I could use a little rain

[Verse 2]

Blame it on the fast lane  
Trying to make that dollar bill  
How everything we gotta do  
We can't just sit and still  
I know that it ain't your fault  
And I hope that it ain't mine  
But we been in a drought for a little too long of time

[Chorus]

I could use a little rain  
Beating on the window pane  
While we listen to the tin roof sing a love song all day long  
Yeah I hope it pours  
And our clothes stay on the floor  
Yeah, that's the kind of storm that's been calling my name  
Yeah, I could use a little rain  
Yeah, I could use a little rain

[Bridge]

Sun sun go away

Come again some other day  
Me and this girl got love to make  
Yeah we got love to make  
Sun sun go away  
Won't you come again some other day  
Me and this girl got love to make  
Baby

[Chorus]

I could use a little rain  
Beating on the window pane  
While we listen to the tin roof sing a love song all day long  
Yeah I hope it pours  
And our clothes stay on the floor  
Yeah, that's the kind of storm that's been calling my name  
Yeah, I could use a little rain  
Yeah, I could use a little rain

[Outro]

Yeah, I could use a little rain  
Yeah, I could use a little rain
