

Dynamite

Sigrid

[Verse 1]

Don't know where I am with you
Forgetting time and space with you

[Pre-Chorus]

Oh, I wish we had a common view
You see my red as blue
I don't belong in your universe
For better or for worse

[Chorus]

I'm the same, but I'm bolder
You'll get home, but I'm on my way out now
Not the same destinations
I will stay when you get off the train
You're as safe as a mountain
But know that I am dynamite
Oh, you're as safe as a mountain
But know that I am dynamite

[Verse 2]

Your hand is warm, but my heart is blue, is blue now
I miss you, but I've got things to do

[Pre-Chorus]

Oh, I wish we had a common view
You see my red as blue
I don't belong in your universe
For better or for worse

[Chorus]

I'm the same, but I'm bolder
You'll get home, but I'm on my way out now
Not the same destinations
I will stay when you get off the train
You're as safe as a mountain
But know that I am dynamite
Oh, you're as safe as a mountain
But know that I am dynamite
Know that I am dynamite

Know, know that I am dynamite
Know that I am dynamite

[Bridge]

Oh, it's so cold here
'Cause I left my heart to be with you
Oh, it's so cold here
'Cause I left my heart to be with you

[Chorus]

I'm the same, but I'm bolder
You'll get home, but I'm on my way out now
Not the same destinations
Know I will stay when you get off the train
You're as safe as a mountain
But know that I am dynamite
Oh, you're as safe as a mountain
But know that I am dynamite
