

Off the Chain

Selena Gomez & The Scene

Twisted, you've shaken my existence
When I'm with you, baby, bliss is (I want you)
All I've come to know (come to me)
Running, I didn't see it coming
Blinded, it's so stunning
I don't wanna let you go A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain
Off the chain, chain, off the chain
The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain
Off the chain, chain, off the chain
Your love, off the chain, your love
Your love is off the chain, chain, off the chain
Your love, off the chain, your love, off the chain
Your love, off the chain, chain, chain, off the chain Coming, just keep the magic coming
You got me, baby, crushing
But it feels like so much more
Just when, when I least expect it
You make it feel so epic
Like nothing I've felt before A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain
Off the chain, chain, off the chain
The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain
Off the chain, chain, off the chain
Your love, off the chain, your love
Your love is off the chain, chain, off the chain
Your love, off the chain, your love, off the chain
Your love, off the chain, chain, chain, off the chain I'm not the type who gets crazy for someone
Odds of me, tripping are like next to nothing
Guarded my heart like a diamond ring
But love, your love changes everything Everything is changed,
Everything is changed
Everything is changed,

Your love is off the chain
Oh, everything is changed,
Everything is changed
Now everything has changed,
Your love...A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain
Off the chain, chain, off the chain
The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain
Off the chain, chain, off the chain Your love, off the chain, your love
Your love is off the chain, chain, off the chain
Your love, off the chain, your love, off the chain
Your love, off the chain, chain, chain, off the chain Your love, your love, your love, love's off
the chain
Your love, your love, your love, love's off the chain
Your love, your love, your love, love's off the chain
Off the chain, off the chain
