

# Tryin' to Untangle My Mind

Chris Stapleton

[Verse 1]

Well I drank a lot of whiskey in my time  
And I've held a lot of women that were fine  
And I made a little money, I blew every dime  
Tryin' to untangle my mind  
Well I've made a lot of choices that were wrong  
That the good lord spend too many nights alone  
And I've been out on the edge, and I've stumbled 'cross the line  
Tryin' to untangle my mind

[Chorus]

So if you see me, and I'm lonesome and stoned  
So far down, the devil's lookin' high  
I'm just trying to untangle my mind

[Verse 2]

Well, I do what I do and I don't know why  
But I do what I do, til' the day I die  
No heartache for the ticket  
So I guess I'll pay the fine  
Tryin' to untangle my mind

[Chorus]

If you see me, and I'm lonesome and stoned  
So far down, the devil's lookin' high  
I'm just tryin' to untangle my mind  
Yes I'm tryin' to untangle my mind
