

Down to Your Street

Evan Blum

[Verse 1]

See me rolling down the freeway, acting like a DJ
Throwin on my favorite album
See me dancing like a pop star, waving to the cop cars

[Pre-Chorus]

Baby its simple roll down the window
Crank up the bass real loud
Throw on the shades, just press play
Now you can let it out, let it out

[Chorus]

Down to your street, rocking on the mic while I'm on the road
Down to your street, pick it up fast then I bring it down low
Down to your street, you can ask anyone they know
See me driving and vibing and vibing and driving all day, hey

[Verse 2]

See me rollin' through the neighborhood
What's good, what's good
Hip hop on the stereo, what's the scenario
Turn it up turn it up, listen to the radio
Oh the sun is shining and we feel alright
We'll be playing music dancing all, all, night (here we go now)

[Pre-Chorus]

Baby its simple roll down the window
Crank up the bass real loud
Throw on the shades, just press play
Now you can let it out, let it out

[Chorus]

Down to your street, rocking on the mic while I'm on the road
Down to your street, pick it up fast then I bring it down low
Down to your street, you can ask anyone they know
See me driving and vibing and vibing and driving all day, hey

[Bridge]

You can see me rocking at the red light
Playing music, playing all night
See me rocking at the red light
Playing music, playing all night

[Chorus]

Down to your street, rocking on the mic while I'm on the road

Down to your street, pick it up fast then I bring it down low
Down to your street, you can ask anyone they know
See me driving and vibing and vibing and driving all day, hey

[Outro]

Down to your street, (down to your street), hey
Down to your street, (down to your street), hey
Down to your street you can ask anyone they know
See me driving and vibing and vibing and driving all day, hey
