

Trump Won

Natasha Owens

Trump Won and you know it!
Trump Won and you know it!
The fake news will never show it
cuz it's true Trump won and you know it

We got dead people voting,
drop boxes and dominion
In fact, some facts. It's not just my opinion
The Democrats know how to steal,
Cmon' man here is the deal!

Trump Won and you know it!
Trump Won and you know it!
The fake news will never show it
cuz it's true Trump won and you know it

While Biden's hiding in the basement, babbling away on zoom,
Patriots for stadiums are circles in an empty room.
Twitter and The FBI
One day you won't deny

Trump Won and you know it!
Trump Won and you know it!
The fake news will never show it
cuz it's true Trump won and you know it

The thing about truth time is always gonna tell.
(Votes in Fulton County were counted more than once)
I bet he took New York and carry California as well,
He's done it twice before.
And he's gonna win again for the third time in 2024

Trump Won and you know it!
Trump Won and you know it!
Fox News won't even show it It's true
cuz it's true Trump won and you know it

Trump Won and you know it!
Trump Won and you know it!
if there's a l.??? gonna tow it,
it's true Trump won and you know it

I know it, you know it, we know it, they know it,

Everybody knows Trump won (x3)
