

# I Feel Better

Gotye

[Verse 1]

There was a time I was down, down  
I didn't know what to do  
I was just stumbling around, around  
Thinking things could not improve  
I couldn't look on the bright side  
Of anything at all  
That's when you gave me a call

[Hook]

And I feel better, better, better than before  
I feel better, better, better, now I'm not down any more

[Verse 2]

And there were times I was sure, so sure  
I couldn't turn it around  
I couldn't care any more  
About the good things I found  
That's when you gave me a reason  
To make me smile again  
I only have to see you and then

[Hook]

I feel better, better, better than before  
I feel better, better, better, now I'm not down any more  
I feel better, better, better than before  
I feel better, better, better, now I'm not down any more

[Verse 3]

Life sometimes seems to get the best of you  
Like everything just brings you down  
Just when you think there's nothing you can do  
A friendly face will bring you around

[Hook]

And you'll feel better  
You'll feel better, you'll feel better  
Better than before  
You'll feel better, much better

No you won't be down any more
