

# Bad Child

## Tones And I

My family always said I was the bad child  
Throwing me away into the bad pile  
All my life been putting on a fake smile  
Sitting on my own, feel like I'm exiled  
Feeling like I  
always do the wrong things  
Telling all their friends that I'm the bad kid  
Now I'm on my own, I lost my magic  
Dealing with your bullshit, now I'm over it  
And you took a part of me  
Left me with the memories, oh  
We were never a family  
Now you're standing in front of my door  
Like none of this happened at all, all, all  
I guess I'm always gonna be the bad child  
I guess I'm always gonna be the mad child  
'Cause you will never understand my weird mind  
My weird mind  
And to every single person here that doubts me  
Telling me that they could live without me  
'Cause they will never understand my weird mind  
My weird mind  
I've never really been the one to reach out  
Acting like my life was squeaky clean now  
Like everything I do is just a let down  
Feeling like I always do the wrong things  
Telling all their friends that I'm the bad kid  
Now I'm on my own, I lost my magic  
Dealing with your bullshit, now I'm over it  
And you took a part of me  
Left me with the memories, oh  
We were never a family  
Now you're standing in front of my door  
Like none of this happened at all, all, all  
I guess I'm always gonna be the bad child  
I guess I'm always gonna be the mad child  
'Cause you will never understand my weird mind  
My weird mind  
And to every single person here that doubts me  
Telling me that they could live without me  
'Cause they will never understand my weird mind  
My weird mind  
They say I've lost my mind  
They say I'll never find it  
I think they're kind of right  
In fact I kind of like it  
They say I've lost my mind  
They say I'll never find it  
I think they're kind of right  
I guess I'm always gonna be the bad child

I guess I'm always gonna be the mad child  
'Cause you will never understand my weird mind  
My weird mind  
And to every single person here that doubts me  
Telling me that they could live without me  
'Cause they will never understand my weird mind  
My weird mind (oh)My family always said I was the bad child
