

# Naked

Walker Hayes

I've got more baggage than a 747  
I've got more issues than rolling stone  
I've got some stories that I'm not so proud of  
Maybe you got a couple of your own  
I'll tell you mine if you tell me yours

Baby, let's get naked, show our tattoos and our scars  
Let's get naked, bare our souls and share our hearts  
Let's strip it down until we just can't fake it  
There's more to love than just the way we make it

Baby, let's get naked  
Baby, let's get naked

I wanna know you know the truth about me  
What kind of man I'm really not and why  
I want your good, your bad and your ugly  
All of the secrets that you stash inside  
I'll tell you mine if you tell me yours

Baby, let's get naked, show our tattoos and our scars  
Let's get naked, bare our souls and share our hearts  
Let's strip it down until we just can't fake it  
There's more to love than just the way we make it

Baby, let's get totally exposed  
Leave nothing undisclosed  
Baby, let's get naked  
Whoa, baby, let's get naked

Baby, let's get naked, show our tattoos and our scars  
Let's get naked, bare our souls and share our hearts  
Let's strip it down until we just can't fake it  
'Cause there's more to love than just the way we make it

Baby, let's get naked  
Baby, let's get naked

Baby, let's get naked
