

With You (feat. Wrabel)

[Kygo](#)

Sitting at a bar with some friends
Telling them the things that you said
Left me with my heart in the hands
Told me we'd be better just friends
Staring at a television
Something 'bout the world's gonna end I think about you, oh
You think about me too, oh If we're losing our minds
I'll get lost with you
If we're all gonna die
I wanna die with you
I wanna die with you
I wanna die with you I been seeing tears all morning
Feel like my apartment's flooding
I don't even know where we left it
Maybe I just need to take a shower
Washing off the last ten hours
All I smell is coffee and cigarettes and you I'm thinking about you, oh
You think about me too, oh If we're losing our minds
I'll get lost with you
If we're all gonna die
I wanna die with you I wanna die with you
I wanna die with you
Thinking about you
If I losing in my minds
I'll get lost with you
If we're all gonna die
I wanna die with you I wanna die with you
I wanna die with you
