Black Mambo

Glass Animals

What'll it be, now Mr. Mole?
Whispers sloth in curls of smoke
Take a back seat
Or play pharaoh
Dance with me
& shake your bonesSlow down
It's a science
He's been waiting
To bring you downSnake-eyed
With a sly smile
He can hold you
& shake you, child
Leopards laze each
On plush pillows
Slender capes
Of red & chromePaperback dreams
In their deep doze
Twitch their toes to
Black mamboSlow down
It's a science
He's been waiting
To bring you downSnake-eyed
With a sly smile
He can hold you
& shake you, child
"Wanna play cheat?"
Now says the sloth
A domino
Flush to his noseTickle that cheek
& take your throne
Pump your veins
With gushing goldSlow down
It's a science
He's been waiting
To bring you down
Snake-eyed
With a sly smile
He can hold you
& shake you, child
We can hold you
We can hold you
We can hold you

We can hold you
