

Do You

Jay Sean

Ooohhh
Do you, Do you, Do you Ooh babe I'm watching you baby
When you're in the mirror
And baby I love the faces you make can be any clearer We gon be working all through the night
Put it in overtime and you know (and you know)
Exactly what I need
So tired of musicing
I wanna hit the sounds of us alone
It's only me and you
Don't stop doing what you do
Keep doing what you do do do you do you
Do you like the way I'm doing you
When I do you you do you do you do you
Do you like the way that I put it down on you
It's only me and you
Do you like the way that I put it down on you
Do you do you do you Do you intoxicate me and I get a rush from you (do you do you)
Well it's running through my veins
Can you feel it in the same kinda places We can be working all through the night
Put it in overtime and you know
Exactly what I need
So tired of music and
I wanna hit the sounds of us alone
It's only me and you
Don't stop doing what you do
Keep doing what you do do do you do you
Do you like the way I'm doing you
When I do you you do you do you do you
Do you like the way that I put it down on you
It's only me and you
Do you like the way that I put it down on you
Do you do you do you Do you like if I take my time and do this right (do it right)
Do you know how I feel inside I'll show you tonight
It's getting closer, closer, closer
So don't stop doing what you do Don't stop doing what you do
Keep doing what you do do do you do you
Do you like the way I'm doing you
When I do you you do you do you do you
Don't stop doing what you do
Keep doing what you do do do you do you
Do you like the way I'm doing you
When I do you you do you do you do you

Ooh
Yeahh
