

Come Over

Trevor Daniel

[Intro]

Yeah-yeah-yeah-yeah-yeah
Yeah-yeah-yeah-yeah-yeah

[Chorus]

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya
I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down

[Verse 1]

Got a bottle that I bought I still need to pop
There's a party in the 'burbs, heard that shit was hot
If you wanna go with me, baby we could slide
Yeah, you talk that talk, girl, what's on your mind?
Can tell it's been a long week, let's leave it behind us
You can come through, I could take you there
But it's cold out, get the Moncler'
Don't got the time to kick it, baby this is rare

[Pre-Chorus]

This really all I need
Whenever I get home, I'ma ring you
You really all I need
Been a long day, wanna see you

[Chorus]

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya
I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down

[Verse 2]

Let 'em say what they gonna say
I pay no attention to 'em anyway
You're the only one on my mind, lately
And I'm fine as long as I'm with you, babe
No, I've never felt the way that I feel about you
If you wanna stay the night, I'm about it
I don't feel these girls 'cause they too dramatic
I don't need the problems, I don't need the static
No it ain't a thing, we could stay low-key
If you're not feeling it, we can leave
They can ride, too, but you're the one I'm wanting
The way you look tonight, can't keep my hands off you, nah

[Pre-Chorus]

This really all I need
Whenever I get home, I'ma ring you
You really all I need
Been a long day, wanna see you

[Chorus]

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya
I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down
