

# In Love With the Girl

Luke Bryan

It feels like I woke up one mornin'  
and it all changed without warnin'  
I don't know how our paths crossed  
but all I know is I've been lost  
Now it's hard to think  
That we were ever strangers  
Was it the wine or the moonlight glow  
or the way we were dancin on that old dirt road  
was it the sweet song she was singin'  
or the way it all happened without even thinkin'  
I've been on the edge I've been on the brink  
But I don't think I've ever been this far  
So yes I, whoa yes I, yes I'm in love with the girl  
I talk about bein' caught off guard  
Talk about an old boy fallin' hard  
Think about a few weeks flyin' by  
and talk about losin' track of time  
Now I'm countin' every second until I see her  
Was it the wine or the moonlight glow  
or the way we were dancin on that old dirt road  
was it the sweet song she was singin'  
or the way it all happened without even thinkin'  
I've been on the edge I've been on the brink  
But I don't think I've ever been this far  
So yes I, whoa yes I, yes I'm in love with the girl  
I was cool with hangin around  
Now I got plans bigger than this town  
Sayin things I ain't never said  
and bein with her ever chance I get  
Heard the old man say son when you know  
Hold on tight and don't let go  
So yes I, whoa yes I, yes I'm in love with the girl
