

# Cool

## Dua Lipa

Guess I never had a love like this (Ah-ha)  
Hit me harder than I ever expected (Ooh)  
We been up all goddamn night, all night, all night (Ah-ha) Keep it going 'till we see the  
sunlight And the color of the sky looking nice, oh, nice  
You know, you know, you know  
Baby, I could see us in the real life  
You know, you know, you got Got me losing all my cool  
'Cause I'm burning up on you  
In control of what I do  
And I love the way you move  
Got the heat and the thrill  
Cause you're more than any pill  
Never running out of juice  
When it's only me and you  
You got me, you got me losing all my cool  
I guess we're ready for the summer I like us better when we're intertwined (Ah-ha)  
The way you touch me got me losing my senses (Hey)  
Put your love with your lips on mine, on mine, on mine (Ah-ha)  
You got me working up an appetite-tite And the color of the sky looking nice, oh, nice  
You know, you know, you know  
Baby, I could see us in the real life  
You know, you know, you got Got me losing all my cool  
'Cause I'm burning up on you  
In control of what I do  
And I love the way you move  
We got the heat and the thrill  
Cause you're more than any pill  
Never running out of juice  
When it's only me and you  
You got me, you got me losing all my cool  
I guess we're ready for the summer You got me, you got me losing all my cool I guess we're  
ready for the summer (Ooh, ooh) Skin tight  
I'll show you heaven, there's nothing better  
I'll give it to you  
All night  
You know, you know, you know Got me losing all my cool  
Yeah, you like the way I move  
In control of what I do  
And my love makes you brand new Got me losing all my cool (Woo)  
'Cause I'm burning up on you (Hey)  
In control of what I do  
And I love the way you move (Hey, go)

Got the heat and the thrill  
Cause you're more than any pill  
Never running out of juice (Woo)  
When it's only me and you  
When it's only me and you (Hey)  
I guess we're ready for the summer (Ooh, ooh)  
You got me, you got me losing all my cool (Hey)  
I guess we're ready for the summer (Ooh, ooh)  
You got me, you got me losing all my cool
