

Earthbound

Strike Anywhere

Earthbound government's open sores
Death and killing in control while a leader is smiling
No thoughts for the people, hearts tied to the floor
You know we never wanted this

We're taught there's nothing more
And I can't tell you it's not working
And for the prizes they promise that offer no ending to the power abusing
Our trust in this system becomes hatred

So, come out and listen?
No, we can't live through this frustration
In this world you must say no
And we're taught nothing more

In the eyes, in the heart
In the mind freedom starts
With our youth still in our hands
An earthquake in our hearts

In the eyes, in the heart
In the mind freedom starts, it's in our hearts
With our youth still in our hands
An earthquake in our hearts

In our hearts
It's in our hearts
