

# When We Come Alive

## Switchfoot

Oh oh oh oh  
Oh oh oh oh The sun goes down like a photograph  
Try to stop time, there's an aftermath  
But it's  
Gone  
gone Yesterday reads like a tragedy  
I try not to lose what's left of me  
But it's  
gone  
Yea but we'll carry on!  
'Cause we are fire  
Burning brightly, you and I  
We light the sky when we ignite  
Yeah yeah  
When we come alive  
When we come alive It feels like cut, you're getting lost today  
The wings in my mind easily swept away  
And I'm  
Gone  
gone And it's one last time to the wishing well  
I throw down the change and I'm wishing well  
But then  
gone  
Yea but we'll carry on!  
'Cause we are fire  
Burning brightly, you and I  
We light the sky when we ignite  
Yea yea  
When we come alive  
When we come alive And our soul's on fire  
We all reach so higher  
We are souls on fire  
When we come alive  
When we come alive  
We are fire  
You and I 'Cause we are fire  
Burning brightly, you and I  
We light the sky when we ignite  
Yea yea  
When we come alive  
When we come alive  
When we come alive

When we come alive  
Strenght  
Heart  
Soul
